

Overall survival (OS) for the EFS group (n=1008). The plot shows survival probability over time (days). The blue line represents the control group, and the orange line represents the treatment group. The EFS P-value is 0.008.

Time (days)	Control Group Survival (approx.)	Treatment Group Survival (approx.)
0	1.00	1.00
500	0.40	0.80
1000	0.10	0.70
1500	0.10	0.60
2000	0.10	0.60
2500	0.10	0.45
3000	0.10	0.30
3200	0.00	0.30
4000	0.00	0.30
